

A close-up photograph of a wood surface with a dark, rich brown color and a prominent, wavy grain pattern. The grain lines are irregular and flowing, creating a textured appearance. The lighting is even, highlighting the natural variations in the wood's texture.

Cathedral Grain Ash
011-004

The image shows a close-up of a wood surface with a light beige or tan color. The grain is characterized by vertical, slightly wavy lines that run from top to bottom. There are subtle variations in tone, with some areas appearing slightly darker or more textured than others, giving it a natural, organic look.

Cathedral Grain Ash
011-1905

A close-up photograph of a wood surface with a cathedral grain pattern. The wood has a warm, medium-brown tone with prominent vertical grain lines and some darker, wavy patterns. The texture is smooth but shows natural wood grain variations.

Cathedral Grain Ash
011-1906

The image shows a close-up of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, vertical, slightly wavy lines that create a cathedral-like appearance. The color is a muted, greyish-brown. The texture is smooth but shows natural wood grain variations.

Cathedral Grain Ash
011-1907

Cathedral Grain Ash
011-2108

A close-up photograph of a dark, textured surface, likely wood or a wood-grain laminate. The texture is characterized by vertical, slightly wavy lines and a mottled appearance, giving it a 'cathedral grain' look. The color is a deep charcoal or blackish-grey.

Cathedral Grain Ash
011-2109

Cathedral Grain Ash
011-2110

A close-up photograph of a wood surface with a vertical grain pattern. The wood has a greyish-brown color with subtle variations in tone and texture, characteristic of ash wood. The grain lines are mostly vertical but show some natural waviness.

Straight Grain Ash Pommele
012-1907

The image displays a close-up of a wood grain pattern, specifically a 'Blistered Ash Figured' finish. The grain is characterized by a series of wavy, vertical lines that create a textured, almost three-dimensional appearance. The color is a dark, muted grey or charcoal, with subtle variations in tone that emphasize the grain's complexity. The texture appears slightly rough or 'blistered', consistent with the name.

Blistered Ash Figured
013-001

The image displays a vertical wood grain pattern with a light beige or off-white base color. The grain is characterized by numerous fine, vertical, wavy lines in a slightly darker, yellowish-tan hue, creating a textured, 'figured' appearance. The overall effect is reminiscent of a 'blistered' or 'flecked' wood finish.

Blistered Ash Figured
013-002

The image displays a close-up of a wood surface with a 'Blistered Ash Figured' pattern. The wood grain is highly textured, showing a mix of light and dark brown tones. The grain lines are wavy and irregular, creating a complex, organic pattern. There are several small, dark, circular spots scattered across the surface, which are characteristic of the 'blistered' effect. The overall appearance is that of a natural, aged wood product.

Blistered Ash Figured
013-2203

A close-up photograph of a wood surface showing a complex, swirling burl pattern. The wood grain is a mix of light tan and medium brown tones, with fine, vertical lines interspersed with larger, more chaotic, and wavy textures. The lighting is even, highlighting the natural grain and the intricate details of the burl.

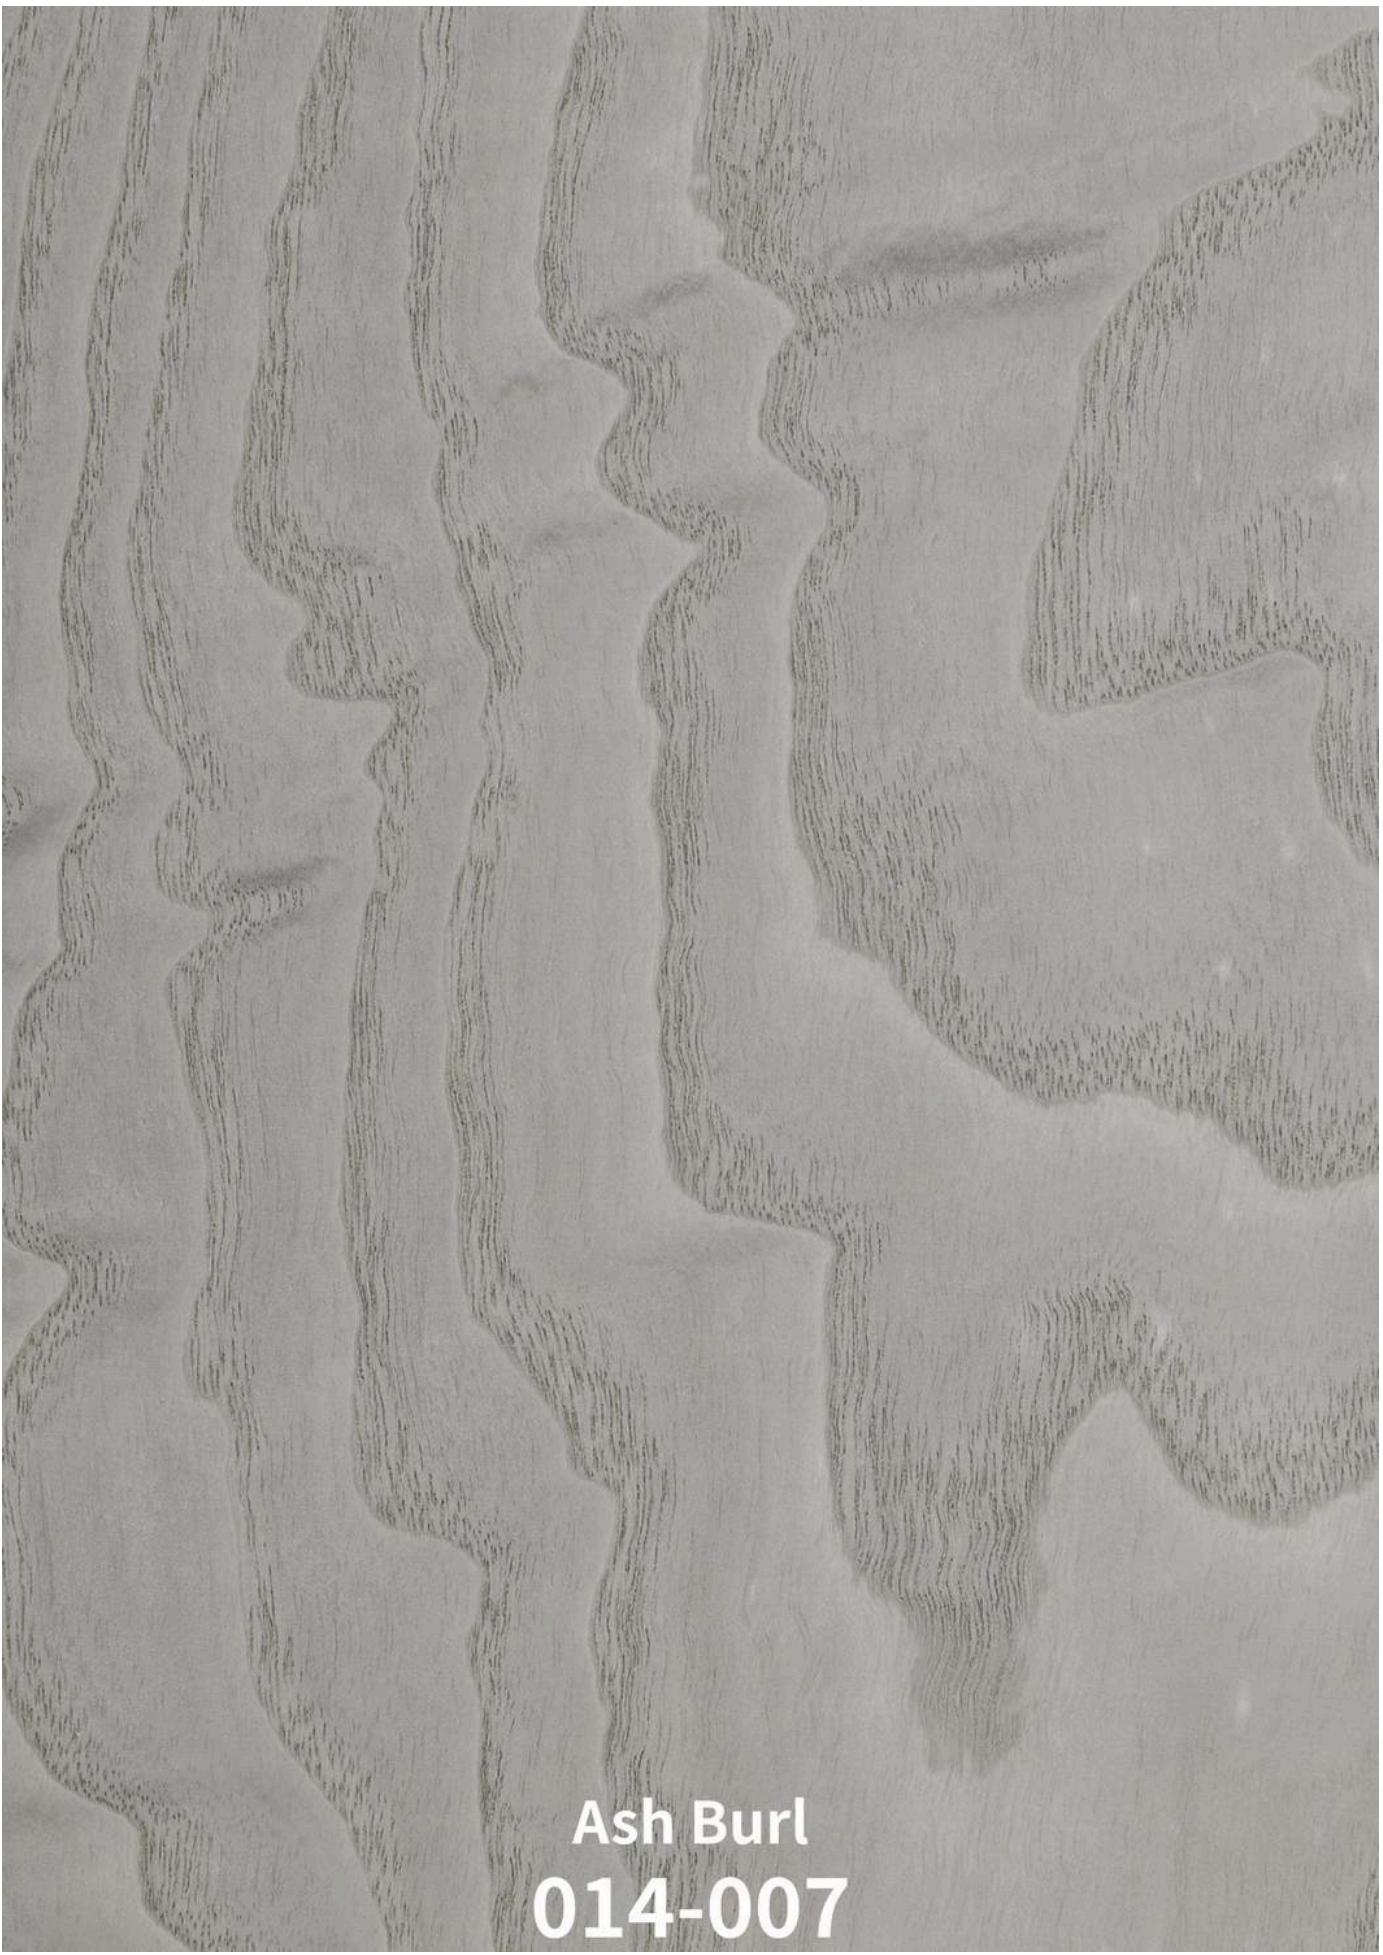

Ash Burl
014-004

The image displays a detailed view of an Ash Burl wood surface. The grain is highly irregular and wavy, with a mix of light tan and beige tones. There are several prominent, circular or oval-shaped burl patterns scattered across the surface, each with a distinct, swirling grain structure. The overall texture is complex and organic.

Ash Burl
014-005

The image displays a close-up of a wood surface with a prominent burl pattern. The grain is highly irregular and swirling, creating a complex, organic texture. The color palette is monochromatic, ranging from dark charcoal to a lighter, ashy gray. The lighting highlights the depth of the grain, giving it a three-dimensional appearance.

Ash Burl
014-006

The image displays a close-up of an Ash Burl wood surface. The grain pattern is highly irregular and wavy, with a mix of light and dark grey tones. The texture is organic and flowing, characteristic of burl wood. In the bottom right corner, the text "Ash Burl" and "014-007" is printed in a white, sans-serif font.

Ash Burl
014-007

The image displays a close-up of a wood surface with a prominent burl pattern. The grain is highly irregular, forming a series of jagged, overlapping peaks and valleys. The color is a dark, muted grey, with subtle variations in tone that emphasize the texture. The overall effect is one of organic complexity and depth.

Ash Burl
014-1908

The image displays a detailed wood grain pattern, specifically Ash Burl. The pattern is characterized by a complex, swirling, and wavy texture. The lines of the grain are irregular and flow in various directions, creating a sense of movement and depth. The color palette is a range of greys, from light, almost white, to dark, charcoal tones, which highlights the intricate details of the wood's structure. In the bottom right corner, the text "Ash Burl" and "014-1909" is printed in a clean, white, sans-serif font.

Ash Burl
014-1909

The image displays a detailed, grayscale view of an ash burl wood grain. The pattern is highly complex and organic, featuring a dense network of interlocking, wavy, and swirling lines that create a three-dimensional, topographical appearance. The lines vary in thickness and direction, creating a rich texture of ridges and valleys. The overall color palette is a range of grays, from light to dark, which emphasizes the intricate details of the wood's growth patterns.

Ash Burl
014-2316

A detailed close-up photograph of an Ash Burl wood surface. The image captures the intricate, swirling, and wavy patterns of the burl, which are formed by the irregular growth of the wood. The color palette is a range of greys, from light, almost white, to dark, charcoal tones, highlighting the texture and depth of the grain. The lighting appears to come from the side, creating subtle shadows that emphasize the undulating contours of the wood.

Ash Burl
014-2317

pearlwood
015-001

A close-up photograph of a wood surface with a cathedral grain pattern. The grain consists of large, flowing, wavy lines that create a sense of movement and depth. The color is a dark, muted brown with subtle variations in tone, giving it a rich, organic appearance. The texture is smooth but shows the natural grain of the wood.

Cathedral Grain Black Walnut
016-001

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, sweeping, and somewhat irregular vertical lines that create a sense of depth and movement. The color is a dark, charcoal grey, typical of black walnut. The texture appears smooth but with natural wood grain variations.

Cathedral Grain Black Walnut
016-002

The image displays a close-up of a wood surface with a cathedral grain pattern. The grain is characterized by a series of large, sweeping, and somewhat irregular arches that run diagonally across the frame. The color is a rich, dark brown, with subtle variations in tone that highlight the texture and grain structure. The lighting appears even, emphasizing the natural beauty of the wood.

Cathedral Grain Black Walnut
016-003

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a fine, textured appearance. The color is a dark, muted brown, typical of black walnut. The lighting is even, highlighting the subtle variations in the wood's texture.

Cathedral Grain Black Walnut
016-005

A close-up photograph of a wood surface with a cathedral grain pattern. The grain is characterized by a series of overlapping, wavy, and somewhat irregular lines that create a sense of depth and movement. The color is a dark, muted brown, typical of black walnut. The texture appears smooth but with natural wood grain variations.

Cathedral Grain Black Walnut
016-006

The image displays a close-up, vertical view of a dark, rich wood grain. The texture is characterized by fine, vertical lines and subtle variations in tone, ranging from deep charcoal to a slightly lighter, almost black, hue. The grain pattern is consistent and dense, typical of high-quality black walnut.

Cathedral Grain Black Walnut
016-007

Cathedral Grain Black Walnut
016-1908

A close-up photograph of a wood surface with a cathedral grain pattern. The wood is a dark, rich brown color with prominent, vertical, wavy grain lines that create a textured, almost sculptural appearance. The lighting is even, highlighting the natural variations in the wood's color and texture.

Cathedral Grain Black Walnut
016-1909

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a fine, textured appearance. The color is a deep, rich brown, typical of black walnut. The lighting is even, highlighting the natural texture of the wood.

Cathedral Grain Black Walnut
016-1910

The image displays a close-up, vertical view of a dark, textured surface, which is the wood grain of black walnut. The grain is characterized by a cathedral pattern, showing a mix of vertical and slightly diagonal lines. The color is a deep, dark charcoal or black, with subtle variations in tone and texture that give it a natural, organic appearance. The lighting is even, highlighting the fine details of the wood grain.

Cathedral Grain Black Walnut
016-1911

Cathedral Grain Black Walnut
016-1912

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a fine, textured appearance. The color is a dark, muted brown or charcoal grey, typical of black walnut. The lighting is even, highlighting the subtle variations in the wood's texture.

Cathedral Grain Black Walnut
016-1913

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, vertical, slightly wavy lines that create a sense of depth and texture. The color is a dark, muted brown or charcoal grey, with subtle variations in tone that highlight the natural grain structure. The lighting appears to come from the side, casting soft shadows that emphasize the vertical ridges and valleys of the grain.

Cathedral Grain Black Walnut
016-1914

A close-up photograph of a wood surface with a vertical grain pattern. The wood is a dark, muted brown color, characteristic of black walnut. The grain is straight and consistent, with fine, closely spaced lines running vertically. There are some subtle variations in tone and texture, including a few small, lighter-colored knots or imperfections. The lighting is even, highlighting the natural texture of the wood.
