Straight Grain Pine
023-002

A close-up photograph of a wood surface showing a straight, vertical grain pattern. The wood has a warm, light brown tone with subtle variations in color and texture along the grain lines.

Straight Grain Pine
023-2103

A close-up photograph of a wood surface, specifically pine, showing a straight grain pattern. The wood has a warm, medium-brown tone with darker, vertical lines running through it, indicating the grain. The texture appears slightly rough and natural.

Straight Grain Basswood
026-002

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a dense and textured appearance. The color is a dark, charcoal gray, with subtle variations in tone that emphasize the natural wood grain. The lighting is even, highlighting the fine details of the wood's texture.

Cathedral Grain White Oak
028-001

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a dense and textured appearance. The color palette is a range of grays, from light to dark, with some areas showing a slightly more pronounced yellowish-brown hue, typical of aged or stained wood. The lighting is even, highlighting the fine details of the wood's texture.

Cathedral Grain White Oak
028-002

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a fine, linear texture. The color palette is a range of grays, from light to dark, with occasional thin, golden-brown streaks that highlight the natural wood grain. The overall appearance is that of a high-quality, finished wood product.

Cathedral Grain White Oak
028-003

The image displays a close-up, vertical view of a wood surface with a 'Cathedral Grain' pattern. The grain is characterized by long, straight, and closely spaced vertical lines, creating a dense and textured appearance. The color is a dark, muted brown with subtle variations in tone, giving it a natural, aged look. The lighting is even, highlighting the fine details of the wood's texture.

Cathedral Grain White Oak
028-004

A close-up photograph of a wood surface with a cathedral grain pattern. The grain is characterized by long, vertical, slightly wavy lines that create a sense of depth and texture. The color is a dark, muted brown with subtle variations in tone, giving it a natural, aged appearance. The lighting is even, highlighting the fine details of the wood's surface.

Cathedral Grain White Oak
028-2105

A close-up photograph of a wood surface with a cathedral grain pattern. The grain consists of wavy, vertical lines in a light tan color against a slightly darker, beige background. The texture is smooth but shows natural wood grain variations.
