Cherry Quater

Chestnut Burl

A close-up photograph of a wood surface, specifically a chestnut crown. The wood grain is highly textured and features a prominent, wavy, and undulating pattern that runs vertically through the center of the image. The color is a warm, light brown or tan. The texture is smooth but shows natural wood grain variations.

The background of the entire image is a close-up, vertical view of a wood grain. The grain is characterized by numerous vertical lines of varying thickness and color, ranging from a light tan to a deep, dark brown. The texture appears natural and slightly uneven, typical of solid wood. The lighting is even, highlighting the organic patterns of the wood.
